#### **Poster for Poster Session**

You are responsible for bringing/sending your poster to the conference. You may hand carry your poster. If you need them, shipping instructions and guidelines are listed below.

Please DO NOT send your poster C.O.D.

POSTER Size and board information (actual board size is 900\*1800)

The Interactive poster session is an extremely dynamic opportunity for you to converse with professional colleagues.

Your posted materials contribute only a portion of the experience and should encourage dialogue. The higher the quality of the posted charts, the higher the quality of the interactions

The poster should be a visual representation of your paper's textual information.

The poster can be one unit or many units, as long as the total size fits the 0.9m wide by 1.3m high area.

There are no limitations to what the design of your interactive poster can be. We want to emphasize aesthetics: attractiveness, color, clarity and legibility. The objective is to capture the audience's attention, so the more colors and graphics that you use on your poster the better, as opposed to just text.

Recommended material is a heavy grade paper that provides support. However, regular grade paper can also be used. The poster board is compatible with pushpins.

### **Shipping Information**

1. Please ship to the following address:  
Kokusai Fashion Center KFC Hall & Rooms
